

SYRAH RESERVA 2005 FACT SHEET

ABOUT THE VINEYARD

Since its founding in 1979 in Rengo, 114 Kilometers South-East of Santiago, Torreón de Paredes winery has had one clear, guiding principle: A good wine can only be produced using top quality proprietary grapes.

This fundamental purpose gives the wines of Torreón de Paredes, which sits in the middle of the well-known Cachapoal Valley and carries the Rapel appellation, the unique characteristics of a celebrated winery.

TECHNICAL NOTES

This wine is the product of Syrah grapes handpicked in late March 2005 in perfect conditions of grape health and ripeness. Fermentation was carried out in stainless steel tanks at controlled temperatures (22°-26°C) followed by 8 months aging in both French and American oak barrels. An assemblage of 5% of Cabernet Sauvignon was realized to enhance the structure and complexity of the final wine.

TASTING NOTES

It has deep and brilliant ruby-red colour; in the nose are intense, attractive and complex notes of ripe plum, smoke and jam. The mouth is smooth and warm with a long finish.

SERVICE TEMPERATURE

Best served at a temperature of 16 to 18°C.
